December 28, 2016

Dear 丸川修館長:

Warm greetings from Taiwan!

We were privileged to have chance to visit your library, and grateful for your introducing the history of the library. The comprehensive tour of the Kyoto Prefectural Library enables us to appreciate the extensive collections as well as advanced reader service facilities in your Library.

During the tour of the library, I was impressed by rich collections of related works about your national treasure *Genji Monogatari*. I would therefore like to donate Chinese translation of the works to your library. It's translated by an internationally well-known scholar Lin Wen-yueh, who also spent one year in Kyoto during her early academic career. In addition, please find enclosed Annual Report and English Introduction of the National Central Library. This shall serve as the beginning of the exchange of both libraries.

Sincerely,

A handwritten signature in cursive script that reads "Shu Hsien Tseng".

Shu-hsien Tseng  
Director General
